

PAY INVOICES SMARTER. [REAP THE REWARDS.]

A better way to pay invoices.

Zevez' innovative combination of service and software provides a time-efficient accounts payable tool for processing, paying, posting and reconciling invoices paid with a credit card. RewardWorks gets results.

- ✓ **Easy.** Zevez includes vendor information, installation, training and support.
- ✓ **Integrated.** RewardWorks is visual, intuitive and easy to learn. We configure it for your existing accounting system and preload vendor information, so there is no additional invoice data to enter.
- ✓ **Effective.** RewardWorks offers a dramatically improved payment, posting and reconciliation experience, that gives accounting control of the card payment process.
