Earn the Points. Use them as you like.

Companies use their reward points to:

- Reduce travel expenses
- Expand computer budgets
- Create customer incentives
- Design employee retention programs
- Add cash to the bottom line

*Transaction costs and time savings are per Zevez customers. Customer size assumptions are Zevez estimates based on actual customer numbers. Note travel rewards could be worth more as the value depends on the location flown and the price of the ticket. For example: a domestic coach flight costing \$700 would require 25,000 points and return 2.8%. A first class flight to Europe would require 125,000 points and cost \$18,000 returning 14%.
